Chair
House Appropriations Committee
H-307, The Capitol
Washington, DC 20515

The Honorable Kay Granger
Ranking Member
House Appropriations Committee
1036 Longworth
Washington, DC 20515

Dear Chair DeLauro and Ranking Member Granger,

I am requesting funding for the Critical Drinking Water Resiliency Project in Fiscal Year 2022.

The entity to receive funding for this project is City of Ephraim, located at 5 South Main Street Ephraim, Utah 84627 in Utah's second congressional district.

The Drinking Water Resiliency Project will replace the deteriorating and obsolete main transmission drinking water pipelines supplying nearly all the drinking water to the City of Ephraim. The rapidly deteriorating and aging lines are at the end of their useful life and are located in mountainous terrain prone to landslides. The City does not have alternative water supplies sufficient to meet the drinking water demand and any pipeline failure will seriously and immediately jeopardize the City's main source of drinking water. The proposed project will replace pipelines improving the resiliency of the critical water supply for Ephraim and assuring the community a consistent and reliable supply of drinking water.

I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Chris Stewart
Member of Congress
