The Honorable Kay Granger  
Ranking Member  
House Appropriations Committee  
1036 Longworth  
Washington, DC 20515

Dear Chair DeLauro and Ranking Member Granger,

I am requesting funding for the Green Steel Tank Replacement Project in Fiscal Year 2022.

The entity to receive funding for this project is City of Centerville, Utah, located at 250 North Main Street Centerville, Utah 84014 in Utah's second congressional district. The funding will be used for replacing the Green Steel Tank which serves as a culinary water reservoir for the City. The Green Steel Tank was constructed in 1971 and was not constructed to meet current seismic codes and design requirements. The Tank is nearby the Wasatch Fault and there are several hundred homes beneath the reservoir that could be flooded in the event of an earthquake. The Tank currently has many rusted out areas and City crews have had to repair many pinhole leaks over the years. The reservoir has met its expected design life and was recoated once in 1998. The Steel Tank continues to have pinhole leaks due to rust and deterioration. This project is the highest priority for Centerville City for Culinary Water system replacement due to continued water loss from leaks and the significant threat that the reservoir poses to the City's residents.

I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Chris Stewart  
Member of Congress
